PROFESSIONAL SUMMARY

Motivated IT undergraduate with hands-on experience in software development and one year of professional training in the banking sector. Skilled in building full-stack and web applications using modern technologies. Passionate about software engineering and DevOps, with strong problem-solving and teamwork skills. Seeking an internship opportunity to gain industry experience and contribute to real-world projects.

EDUCATION

Bachelor of Science in Information Technology

Sri Lanka Institute of Information Technology (SLIIT)

2023 – 2027 (Expected)

EXPERIENCE

Trainee – People's Bank, Sri Lanka

Jan 2022 – Jan 2023

- Completed one-year training under the Advanced Level school leavers training scheme.
- Gained exposure to operations at the Regional Head Office – Gampaha.
- Assisted in administrative and banking-related tasks, improving organizational and communication skills.
- Developed understanding of banking processes and professional work environment.

SKILLS

- Programming: Java, JavaScript, PHP, C, Kotlin, HTML, CSS
- Frameworks: React, Node.js, Express, JSP, Servlets, Flask
- Databases: MySQL, MongoDB, Oracle SQL
- Tools: Git, GitHub, Postman, Figma

PROJECTS

Eventrix – University Event Management Platform (MERN Stack)

Designed and developed a web application with multiple user roles (Admin, Organizer, Student). Implemented event creation, registration, notifications, and user management features.

SafeGo – Smart School Bus Monitoring System (MERN Stack)

Developed a full-stack application for student transport monitoring with features such as tracking, alerts, and trip management.

Hotel Reservation System (PHP, MySQL)

Developed a web-based hotel booking system with reservation management, CRUD operations, and payment simulation.

Online E-Shopping Platform (Java, Servlets, MySQL)

Built an e-commerce web application with authentication and product management using MVC architecture.

Tour Guide Management System (Java, JSP, MySQL)

Developed a system to manage tour guide information with full CRUD functionality using JDBC.

Habit Tracker Mobile App (Kotlin, Android)

Developed an Android application to track daily habits with local database integration.

LEADERSHIP

- Led multiple university project teams, ensuring coordination and timely completion.
- Strengthened teamwork, communication, and problem-solving skills.

ADDITIONAL INFORMATION

- Strong interest in Software Development, DevOps, and Cloud technologies.
- Quick learner with adaptability to new technologies.
- Actively seeking internship opportunities.
